

COMMUNITY DIRECTOR UPDATE FEBRUARY 1, 2026

COMMUNITY NEWS & REMINDERS

This is your chance to connect with fellow residents, share ideas, and help shape the future of our community. **The Laughlin Community Council** is also looking for new members, passionate neighbors who want to make a positive impact by representing residents, planning events, and improving our quality of life.

Your voice matters. Together, we can make Laughlin Family Housing an even better place to live, work, and play! Please call our office at (830) 291-8550 for details.

MAINTENANCE TIPS: WINTERIZE YOUR HOME!

- **Disconnect garden hoses from the outside water spigot:**
The water inside the hose can rapidly freeze when the temperature drops below 32 degrees. Burst outside spigots are a potentially expensive problem that is relatively easy to avoid.
- **NEVER turn your heat off or lower than 65° F.** Even if you are planning to be out of town or away from home for more than 24 hours, it is imperative to leave the heat running to help prevent your pipes from freezing and bursting.
- **Dripping faucets prevent freezing:** Open faucets to allow both the cold and hot water to drip. This allows water to flow continuously and helps prevent pipes from freezing.
- **Open cabinet doors where plumbing is located:** Open your kitchen and bathroom cabinet doors to allow warm air to circulate around the plumbing.
- **When Leaving for Vacation:** Notify the Leasing Office if you're going on vacation for an extended length of time.
- **Keep registers in unused rooms open:** Any registers in unused spare rooms should be left open in order to keep the room warm and prevent interior water lines from freezing.
- **Remember portable heater safety:** Keep all heaters no less than 3 feet away from objects, do not leave unattended, do not plug into an extension cord, keep on a flat surface, keep away from children, and ensure it is equipped with an auto shut-off.

**Stay safe,
warm, and
worry-free
this winter
season!**
