

# COMMUNITY DIRECTOR UPDATE

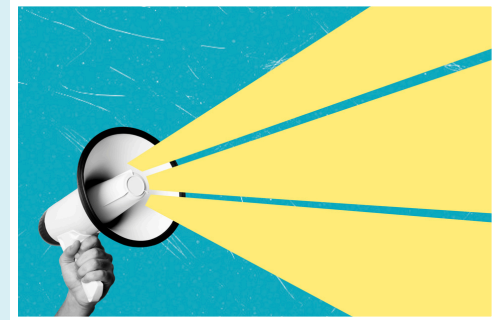

## APRIL 1, 2026

### **COMMUNITY NEWS**

**Laughlin Community Council:** This is your chance to connect with fellow residents, share ideas, and help shape the future of our community.

The Laughlin Community Council is seeking new members, dedicated neighbors who wish to positively impact our community by representing residents, organizing events, and enhancing our quality of life.

Your voice matters. Together, we can make Laughlin Family Housing an even better place to live, work, and play! Please call our office at (830) 291-8550 for details.

This year's Earth Day theme, **"Our Power, Our Planet,"** highlights the impact we can make when we act together. Championed by Earth Day organizers and the Global Citizen campaign, the theme underscores our shared responsibility to drive meaningful environmental change from expanding renewable energy to ending deforestation. The message is clear: each of us has power, and together we can protect our planet.

#### **8 Simple (But Meaningful) Actions You Can Take**

Small daily choices truly add up. Here are eight easy ways to live a little greener:

- Reduce, reuse, then recycle: Follow the three Rs in order for the biggest impact.
- Turn waste into art: Get creative with items you might otherwise throw away.
- Flex your power: Conserve energy by unplugging devices, switching to LEDs, or choosing energy-efficient appliances.
- Eat more plants: Even one plant-based meal a week can help shrink your carbon footprint.
- Cut down on food waste: Plan meals, save leftovers, and get creative with meal planning.
- Reconnect with nature: Open a window, tend to a houseplant, or step outside for a walk.
- Take the train: Public transit is one of the simplest ways to reduce emissions.

Every action, big or small, moves us toward a healthier, more sustainable future. This Earth Day, let's tap into our collective power to protect the only home we have.
